Empire operates in 3 market segments, plus a corporate segment:

Media Based Attractions

(in 000's)

	YTD September 30, 2015
Sales	\$73,664
Adjusted EBITDA	\$7,128
Adjusted EBIT	\$6,245

- Dynamic Attractions:** turn-key integrator of proprietary, premium media-based entertainment attractions, and provider of parts and service for theme park attractions. Key products include Flying Theatres, Special Effects Roller Coasters, Automatically Guided Vehicle (AGV) attractions, and Dark Rides.
- Dynamic Structures:** designs and manufactures complex ride systems for established theme park owners around the world. Is also one of the world's leading designers and manufacturers of large ground-based astronomical observatory telescopes. Dynamic Structures is also involved in a strategic alliance between Empire and the Harlington Center for Innovative Optics Ltd. This strategic alliance is focused on research and development of potentially disruptive new technologies in the manufacture and polishing of the large mirrors used by giant telescopes. These new technologies hold the potential to make large astronomical telescopes much less expensive to build, and much faster to deliver, dramatically changing the potential market for the equipment.

Manufactured Products

(in 000's)

	YTD September 30, 2015
Sales	\$15,026
Adjusted EBITDA	(\$130)
Adjusted EBIT	(\$264)

Petrofield Industries: manufactures hydrovac trucks for excavation service providers, primarily in the oil and gas industry. Petrofield designs and manufactures the Tornado Hydrovac F4 – considered to be the best industrial grade hydrovac in the industry. Tornado Hydrovac are powerful, rugged and most important... simple. Industrial hydrovac must be much more durable than municipal hydrovac, given the rough terrain they operate in, and the fact that they are often far from the nearest service outlet. Petrofield's deep understanding of these issues keeps them at the forefront of the industrial hydrovac industry.

Steel Fabrication Services

(in 000's)

	YTD September 30, 2015
Sales	\$23,899
Adjusted EBITDA	\$103
Adjusted EBIT	(\$180)

- Empire Iron Works: focuses on structural steel fabrication and installation in the western Canadian industrial market. This focus means that they are not subject to the same competitive pressures that exist in the simpler commercial market, where there are a large number of smaller shops that can compete for contracts. The industrial market requires significant capabilities and quality control that many commercial fabricators are less equipped to provide.
- Parr Metal Fabricators: Speciality carbon and stainless steel fabrication, such as tanks and pressure vessels. In addition to supplying the general marketplace with these products, Parr also provides the tanks for Petrofield's hydrovac trucks, improving Empire's consolidated margins by keeping the work in-house.
- ACE Industrial Services: Aboriginally controlled partnership in Fort McMurray, AB. 51% owned by the Athabasca Chipewyan First Nation, through ACDEN Ltd. and 49% by Empire. Provides multi-trade industrial maintenance services, steel fabrication and erection, and machining services primarily to the oil sands market.
- Dongguan Qiguang Dynamic Steel Structures Ltd.: 55% owned by our Chinese partner and 45% by Empire. This Chinese company fabricates and installs complex structural steel projects in China. We are developing the capabilities of this company to allow it to export fabricated steel into North America as part of our global steel supply chain.

Corporate Segment

(in 000's)

	YTD September 30, 2015
Sales	(\$2)
Adjusted EBITDA	\$2,092
Adjusted EBIT	\$2,092

- The Corporate segment is a non-operating segment that includes head office overhead costs, including public company compliance costs such as audit, legal, TSXV, securities' commissions, etc.
